

BlueCrest Global Services  
Job Application Management

We can help you handle  
new jobs and application  
changeovers effectively  
and efficiently.

In any business, capacity, efficiency and the ability to change and adapt quickly are critical. That's why we offer Job Application Management. We'll provide a highly qualified client service representative or specialist to schedule meetings and discuss future new job application needs as they arise. We'll even schedule a BlueCrest specialist for any required design work. Job Application Management can help you:

- Create modes for new applications. Plus, make mode and model modifications with the Direct Connect software.
- Modify software configuration files.
- Enhance work cell efficiency.
- Simplify set-up for new applications.
- Improve your ability to handle new jobs and application changeovers.

## Leverage our comprehensive knowledge and support.

BlueCrest knows all the critical elements of an integrated print, mail and document processing business. Leverage our expertise and best practices to gain efficiencies and optimize your people, process and technology.
